SEAPLANE TRANSFER

An aerial photograph of a tropical island in the Maldives. The island is lush with green palm trees and has a white sandy beach. A long, curved wooden pier extends from the island into the turquoise water, leading to a series of overwater villas. In the bottom left corner, a white seaplane is visible on the water. The sky is a clear, vibrant blue with a few wispy clouds. The overall scene is serene and idyllic.

Set on one of the most pristine Maldivian islands, Anantara Kihavah Maldives Villas is a 30-minute seaplane journey from Velana International Airport (MLE), an unforgettable experience in-itself as the plane flies over a string of glowing coral islands surrounded by brilliant turquoise waters.
