PLAY IN PARADISE

Velaa Golf Academy by Olazábal is a unique golfing experience featuring a 9 hole golf course in structured and casual combinations. Designed by José María Olazábal, renowned for his short game mastery, the Velaa Golf Academy provides an unequalled backdrop to enjoy and develop your game.

Due to its unique design the course caters for both the beginner and professional golfer.

Velaa Golf Academy boasts a studio offering one-on-one tuition with PGA professionals and prides itself in tailoring golf lessons to suit the individual, focusing on the areas required for improvement.

The indoor teaching studio allows guests to practice or take instruction regardless of the weather. With the studio's retractable doors, players are able to enjoy hitting from an air conditioned area whilst still playing to the greens outside.

The academy also holds swing analysis software with the latest technology and is equipped with a state-of-the-art Trackman simulator to enhance the golfing experience. A putting green and tailor-made tuition programmes make the Velaa Golf Academy an experience for the whole family to enjoy.

A personal note from José María Olazábal

“The Maldives. A vacation paradise, and space for golf? Of course, but forget 7,500 yards, 5 hour rounds and think entertainment and fun, think game improvement, think family time enjoying excellent facilities tailored to the individual.

The possibilities are endless, a putting competition with my kids or hone my short game in the sun or learn some new skills, or to beat my wife when playing on the course! Velaa Private Island gave us part of their treasured island for a very special golf academy. It has been our goal to create an experience that guests will find hard to beat. The essence is to create the experience each and every guests wants.

Try the latest Trackman 4 simulator where you can play the best golf courses in the world as well as challenge a friend. Introduce the family to the game with tailor made tuition programmes for individuals or groups using the latest technology to get started or to perfect your short game.

With nine different tees, six greens, seven bunkers, and a turquoise lake, the colour the Maldives is so famous for, this golf course provides a template, the envy of any painter, to conceive and develop your unique private golfing experience.

Are you a serious golfer? This course offers everything from putting, chipping, and pitching and includes wedges, trouble shots, bunkers, water, the rough and even iron play from short to mid and long irons. Additionally, you will find a swing studio equipped with the latest technology and gadgets.

I invite you to experience it for yourself and I hope you will find it a precious little gem.”
