Challenge the Impossibility

Leap of Faith

Test your faith with an eight-story freefall into six inches of water through an extreme open-flume body ride. Plummet down a near-vertical drop and pass through a shark tank at a speed of 20m/s to experience the extreme thrills and high speeds that all daredevils craves.

Speedloop

Brave challengers must first ascend the platform that is 24 meters tall to start their journey through the Speedloop. Standing on a trap door in a transparent pod high above the water park, the floor suddenly drops open to leave you freefalling into the narrow flume below. Everything becomes a blur as you accelerate to a top speed of 20.2 m/s through the near-vertical chute, never slowing as you loop, slide, and plummet straight down.

SEAShooter

Start your descent to the bottom through the looping tunnels of the octopus arms before reaching the final section of wide open lanes. Ossiano Underwater Restaurant & Bar

Unique Italian Restaurant in Hainan

- Italian Risotto
- Grilled Porcini Mushrooms
- Homemade Ricotta

Porcini

Porcini mushrooms, sold both fresh and dried, are prized in Italian cuisine. These popular mushrooms are cultivated in Europe, North America, and parts of Asia, and grow naturally in pine forests at the base of trees. Autumn is porcini season in central Europe, with much of the carefully picked harvest dried for later consumption or export. Fresh porcini are beloved by gourmet chefs and can be sautéed and eaten as a side dish or added to risottos and pasta, while the dried mushrooms add rich flavor to broths and stews.

Ricotta

It is an Italian whey cheese made from sheep, cow, goat, or Italian water buffalo milk whey. Like mascarpone in northern Italian cuisine, ricotta is a favorite component of many Italian dishes, like pasta, risotto and desserts, such as cheesecakes and cannoli.

NETSU

- Modern and refined Japanese cuisine centered on a sustainable and healthy seafood concept. Diners at Netsu can enjoy fresh sashimi, a rainbow of assorted sushi dishes, and beautiful tempura in contemporary décor comprising graffiti and modern art.
- Dine on delicious sashimi, freshly made nigiri sushi, teppanyaki, and robatayaki
- Drinks include a variety of Japanese sake, rice wine, Japanese bottled beer, and Japanese draft beer
- Lunch 11:30-14:30 Dinner 17:30-22:00

Netsu — Sanya's Top-tier Ocean Caught Sashimi

Sea fishing

Sea fishing is not only the latest trend in food and leisure, but also a more sustainable and healthier way to fish the oceans. Compared with industrialized trawling, ocean fishing protects the diversity and quantity of fish in the ocean while providing fresher fish that simply cannot be matched by trawling. Its small scale makes ocean fishing much more suited to today's environmental needs.

All ocean-caught seafood served at Netsu is sourced from the waters around Sansha, Xisha, Zhongsha, and Nansha. Guests at Netsu have the opportunity to taste rare deep-sea fish sashimi like grouper and black hairfish.

- **Steaks & Other Dishes to Share:** T-bone, Tomahawk, Wellington. Served with a range of red wine. Classic Preparation: Dry-aged steaks

Classic Preparation: Dry-aged steaks

All steaks are carefully dry-aged for 28 to 35 days in Atlantis Sanya's dry-aging room, with a precisely controlled temperature and humidity. This long-aging process brings out notes of cream, acorns, and cheese in the beef as well as giving it a softer and juicier texture.

The availability of different steak cuts and varieties changes each day depending on stocks in the dry-aging room. Chefs will personally select the cut before preparing each meal.

Bread Street Kitchen & Bar

Top Ingredients: Rangers Valley beef.

- Based in Australia, Rangers Valley is one of the world's most respected producers of high-quality marbled beef. All Rangers Valleys cattle are raised hormone-free under a 360-day slow rearing program that ensures the specific crossbreed of cattle grow naturally to maximize the natural texture of the beef.
- Rangers Valley beef is famed for its excellent quality, incredible flavour, fresh and juicy texture, and melt-in-the-mouth sensation.

CRAB KITCHEN

Alaskan King Crab

Because of their large size and legs that can grow up to 1 meter in length, Alaskan crabs are often known as 'King Crabs' or the 'King of Crabs'. They are mainly found in cold waters where their slow growth results in a high nutrient density within the crab meat.

Sri Lankan Crab

One of the main characteristics of Sri Lankan Crabs is the clear net-like texture on their claws. They typically live on the boundary of saltwater and freshwater bodies and can grow to a maximum size and weight of 0.8 meters and 3.5 kilograms respectively. Sri Lankan crab meat is sweet in flavor and dense in texture.

Jumbo Crab

Jumbo Crabs are popular with diners because of the pure and slightly sweet taste of their meat. A typical Jumbo Crab weighs 1 kilogram.

Tikki Lounge & Bar — The Place To Be For Craft Beer In Sanya

Craft Beer

Craft beer at Tikki is brewed using just four ingredients: water, malt, hops and yeast. Unlike most mass-produced beers, which replace the malt with low-cost alternatives like rice and corn starch, craft beer is brewed with a commitment to using only simple and high-quality ingredients.

Malt is the most important ingredient in brewing beer. Craft beers typically feature rich aromas due to the different roasting degree of the raw malt. A large amount of active yeast is also retained in the brewing process to aid the fermentation process; as is a high concentration wort, which is rich in amino acids, vitamins and other micronutrients that are not only high in nutrition but also give the beer its fresh taste. Craft beers are also known for their dense foam head, it sits atop the beer for a longer period, which in turn keeps the freshness of the beer locked in.

Tikki Lounge & Bar operates its own on-site microbrewery fitted with top-of-the-line equipment and operated by professional brewers from Germany. Using top-notch ingredients and the most meticulous brewing methods, Tikki Lounge & Bar brews the best craft beer in Sanya.
