Our tour offerings are pretty unique and lots of fun. The offerings featured here on our website are only a small portion of our offerings. We evaluate safety, ethics, guide attentiveness and communication skills, as well as overall tour quality and value. CC's Exclusive tours are primarily focused on eco-tours - tours designed to have you enjoy the local ecology. Our eco-tours require a fair amount of physical activity-whether it be for example kayaking or hiking.

We generally use our own staff drivers and vehicles also. This is also done to improve safety and customer service. We carefully maintain our vehicles and our staff drivers have excellent track records. We want our customers to feel safe and secure so that they can fully enjoy their tour experience. For all CC's exclusive tours are commission-free, unless specifically stated. This means that our employees are not going to try to sweet talk you into buying things from third party vendors along the way. Their job is to focus on our guests and we take various precautions to ensure they do. Most of our customers on any CC's Exclusive tour are our hotel guests; so, we hope you understand that means we are quite committed to the CC's Exclusive tour experience.

Pearl of the Andaman – Phuket

The name Phuket is apparently derived from the word *bukit* in [Malay](#) which means "hill", as this is what the island appears like from a distance.

Phuket is the biggest island in Thailand, located in the [Andaman Sea](#) of southern Thailand. The island is mostly mountainous with a mountain range in the west of the island from the north to the south. The mountains of Phuket form the southern end of the [Phuket Mountain range](#), which ranges for 440 kilometers (270 mi). The highest elevation of the island is [Mai Thao Sip Song](#) (Twelve Canes), at 529 meters (1,736 ft.) above sea level.

It is estimated that Phuket has a total area of approximately 570 square kilometers (220 sq. mi) Phuket is approximately 863 kilometers (536 miles) south of Bangkok, and covers an area of approximately 543 square kilometers (210 sq. mi) excluding small islets. It is estimated that if all its 39 other small islands are included; Phuket Province will cover an area of approximately 590 square kilometers (230 sq. mi). The island total length, from north to south, is estimated at 48 kilometers (30 miles) and 21 kilometers (13 miles) wide.

Phuket's topology is exceptional with 70 percent of its area covered with mountains which stretch from north to south and the remaining 30 percent being plains located in the central and eastern parts of the island.

Patong is equally well known for its nightlife, centered around Soi Bangla. Patong is also a shopping option in Phuket selling items such as clothes, fashion accessories or souvenirs. The northern end of Patong Bay is called Kalim and is a popular place for viewing the sunset and between April and September each year for surfing.

Karon - is the second largest of Phuket's tourist beaches, approximately 20 kilometers (12 mi) from town. Large resort complexes line the road behind the shoreline, but the broad beach itself has no development. Numerous restaurants and tourist stores are located across the street from the beach.
