- TV
- Flipchart
- Air conditioning

## **ANTİK CISTERNA**

Ancient Cisterna has a different style and content from other places. 1500-year-old cistern dating from the Late Roman-Early Byzantine Period was restored and transformed into an art and event center. The concept is built on top of the cistern whose original form is preserved as in the hotel project, which has been faithful to its originality and built on site. After the restoration works, the place where art meets history is in the heart of the city called Antik Cisterna.
